

FirstNet & Public Safety Broadband Antenna Solutions

Mobile Mark provides mission-critical antenna solutions engineered for public safety broadband deployments. From FirstNet-ready devices and vehicle routers to fixed infrastructure applications, our antennas help maintain reliable communications when it matters most.

When seconds count, start with the right antenna.

FirstNet & Broadband Vehicle Connectivity

GMAX944

9 Elements + Integrated NMO
4x 5G/LTE, 4x WiFi 6E/7, 1x
GNSS; Supports External
LMR/P25 Antenna

MXG944

9 Elements in Sleek Radome
4x 5G/LTE, 4x WiFi 6E/7, 1x
GNSS; Aerodynamic Design for
Vehicle Roofs

LTMWG944

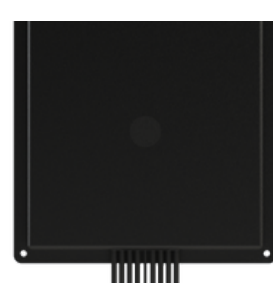

9 Elements in One Surface-Mount
Radome; 4x 5G/LTE, 4x WiFi
6E/7, 1x GNSS; Custom colors,
rail-ready, and high-temp options

MXFG708

Slim MaxFin radome, Only 2.25"
Wide; 2x 5G/LTE, 4x WiFi 6E/7,
1x GNSS; Fits Between Vehicle
Roof Ridges

Compact, Covert, & Low-Profile

PNMG944

Covert / Wall-Mount Multiband
MIMO; 4x Cellular, 4x WiFi, 1x
GNSS; Covers 5G/LTE & WiFi
6E/7

CVWG508

Covert MIMO Multiband Antenna
2x Cellular, 2x WiFi 6E/7, 1x
GNSS; Compact: 2" x 7" x 0.75"

CVW-LTE

Covert Broadband LTE Antenna
694-960 & 2100-2700 MHz
Compact: 5.5" L x 1.5" W

LLPG708

Low-Profile Multiband Antenna
2x 5G/LTE, 4x WiFi 6E/7, 1x
GNSS; 1.25" (31.8 mm) Tall

Fixed Site & Broadband Infrastructure

PND10-600/7200

Directional MIMO Panel Antenna
600-7200 MHz Broadband
Coverage; For Targeted Site
Coverage

BSLLG3-600/7200

Heavy-Duty Base Station Antenna
600-7200 MHz Broadband
Coverage; For Public Safety Fixed
Sites

DOD3-600/7200

Omni-Directional MIMO Antenna
2x Cellular: 617-960 MHz &
1710-7200 MHz
Ground Plane Independent

Y42700WB-2X

Dual Log Periodic Directional
Antenna; 2x MIMO, 600-6000
MHz; Heavy-Duty Directional
Coverage
