

A1001

Heavy-Duty Battery Tap

PRODUCT OVERVIEW

The A1001 is a Heavy-Duty Battery Tap that's designed for tapping off power from any 12 volt battery to other accessories such as Two-Way Radio Equipment, Electric Wrenches, Burglar Alarm, Trailer Lights, etc. This product can be simply attached to any battery cable in minutes; no soldering is needed for installation.

The product is manufactured from high-quality extruded aluminum block and electrically insulated by Red Epoxy coat that is anti-corrosion.

This product is available in two packages; the A1001A, includes five individually packaged connectors, and the A1001B, is a bulk pack of 25 pieces. Set screws are included.

The manufacturer recommends that a fuse of proper rating be installed on the accessory line as close to the Battery Tap as possible (see [Installation Instructions](#) for details)

To Purchase, visit www.TheAntennaStore.com.
