

NT-1575 Installation Instruction

Installation Steps:

- Drill a 3/4" (19mm) diameter hole through the mounting surface (1 sq-ft ground plane recommended)
- Remove all the paper from the gasket.
- Feed Base Bolt and Connector through the hole.
- OPTIONAL: If additional sealing is required, a bead of silicone can be applied to the gasket
- Tighten nut to 5 lb./ft. (6.8 Nm).
- NOTE: DO NOT overtighten
- NOTE: If the underside of the base bolt is exposed, a sealant is required
- ATTENTION: Always wear safety glasses and follow the proper safety practices when installing this antenna.
