

Battery Tap Installation Instructions

High Current Connector for Electrical Automotive Accessories

INSTALLATION STEPS:

- Strip insulation 3/8" from end of HOT lead going to accessory
- Loosen short set screw, insert lead from accessory into hole in the Battery Tap then tighten set screw
- Place Battery Tap with lead attached onto HOT battery cable. Tighten long set screw.
CAUTION: DO NOT ground the allen wrench
- Set screws should be tightened until tops are below the insulated surface of the Battery Tap
NOTE: the set screw has a hollow tip which will puncture the cable insulation making electrical contact with the conductor
- ATTENTION: Always wear safety glasses and follow the proper safety practices when installing this accessory

WARRANTY

Mobile Mark, Inc. (Seller) warrants to Buyer that the products for a period of two years from the date of shipment will be free from defects in material and workmanship, and will be in accordance with specifications referred to herein. Seller's sole obligation under these warranties will be limited to either, at Seller's option and expense, repairing, or furnishing a replacement F.O.B. First point of shipment for the products or parts thereof which Seller reasonably determines do not conform with these warranties, and Buyer's exclusive remedy for breach of any of such warranties will be enforcement of such obligations of Seller. THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES OF MERCHANTABILITY, FITNESS FOR PURPOSE AND OF ANY OTHER TYPE, WHETHER EXPRESS OR IMPLIED. IN NO EVENT SHALL SELLER BE LIABLE FOR CONSEQUENTIAL DAMAGES, nor shall Seller's liability on any claims for damages arising out of or connected with the sales contract for the manufacture, sale, delivery or use of the products exceed the purchase price of the products. Any action for breach of warranty must be commenced within one year after the cause of action accrues.
