

A55136TB/TBS

Tri-Band P25 Mobile Antenna

PRODUCT OVERVIEW

Mobile Mark's A55136 is a premium heavy-duty P25 Tri-band Mobile Antenna with a NO TUNE Design. This Antenna is Vertically Polarized with an omni-directional pattern.

This high quality, high performance antenna is specifically designed for public safety covering VHF, UHF, TETRA, and 700/800/900 MHz.

This antenna is manufactured using the finest corrosion resistant materials and finishes available. The enclosed silver-plated phasing coil insures dependable operation. The narrow base measures 1 3/4" (44 mm) in diameter and has an ultrasonically welded brass insert with a spring-loaded contact for long term reliability.

This antenna mates with a standard NMO type mount. It comes with a circular rubber gasket that provides an excellent moisture seal against the NMO Mount. The mount itself is sold separately and comes with an "O" ring that provides an additional water tight seal.

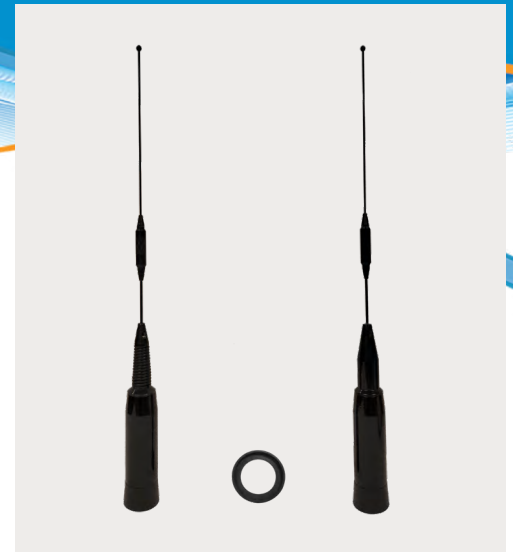

Specify A55136**TB** for option with Bullet Base, or A55136**TBS** for the option with Shock Spring Base.

Visit our [eStore](#) to customize an Omni-Directional Antenna Online.

Comtelco Antennas is Now a Mobile Mark Brand.

Electrical Specifications	
Frequency & Gain	136-174 MHz, 3 dBi (VHF) 380-520 MHz, 5 dBi (UHF) 698-960 MHz, 5 dBi (700/800/900 Bands)
VSWR	2.25:1 max over range
Impedance	50 Ohm Nominal
Power Rating	200 Watts
Polarization	Vertical

Mechanical Specifications	
Material & Color	Stainless Steel Radiator/Whip and ABS Plastic. BLACK
Dimensions	0.125" (25.4 mm) Radiator/Whip Diameter 20.37" (514 mm) in Length 1.75" (44 mm) Base Diameter with Rubber Gasket
Matching Coil	Silver Plated, Enclosed Coil
Antenna Contact	Spring Loaded
Mounting	Standard NMO Mount
Base Options	A55136 TB - Bullet Base A55136 TBS - Shock Spring Base
