

**LOW PROFILE TRANSIT ANTENNA**

*Performance: These antennas provide unity gain in a design for heavy duty service. They have a power handling capacity of 200 watts.*

*Stylish and Durable: These antennas are manufactured using the finest materials and finishes available. The covers are molded using UV inhibited ABS plastic and are available in black or white finishes.*

*Reliable: The brass base is triple plated chrome with a gold plated spring loaded contact.*

*Standard Mounting: These antennas mate with the standard TAD/NMO type mount, providing an excellent moisture seal even when the antenna is removed.*
