

### TOWER STANDOFF

**BSSMNT10: Tower Side Mount Kit:** This side mount kit has been designed for use with the Comtelco XL series base station antennas. It is supplied with 2" galvanized U-bolts that will easily mount on a ROHN 45 type tower.

If a larger tower leg is being used, stainless steel strapping (not supplied) can be used. These side mounts are very heavy duty with galvanized finish. The BSSMNT10 is 12" high and will move the antenna 25" off the tower leg.

	<b>BSSMNT10 Series</b>
<b>HEIGHT</b>	12" (20cm)
<b>LENGTH</b>	25" (65.5cm)
<b>WEIGHT</b>	9.5 lbs.(4.3kg)
